

# European Public Health Association (EUPHA)

## **ANNUAL REPORT, 2025**

In 2025, EUPHA received co-funding under an operating grant from the European Union's Health Programme until 30 June .

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or HaDEA. Neither the European Union nor the granting authority can be held responsible for them.

## ABOUT EUPHA

---

The European Public Health Association (EUPHA) is the umbrella organisation for public health associations and institutes in Europe. EUPHA has 72 members from 36 countries.

As a membership organization, we unite Europe's public health community to connect science and practice, exchange expertise, influence policy, and build healthier societies.

Our mission is to facilitate and activate a strong voice of the public health network by enhancing visibility of the evidence and by strengthening the capacity of public health professionals. EUPHA contributes to the preservation and improvement of public health in the European region through capacity and knowledge building. We are committed to creating a more inclusive Europe, narrowing all health inequalities among Europeans, by empowering and amplifying strong, facilitating, activating, and disseminating strong evidence-based voices from the public health community and by strengthening the capacity of public health professionals to achieve evidence-based change.

# Introduction

---

## Word from President, President-Elect and Executive Director

### **A year of progress, resilience, and renewal**

In 2024, together we shaped a new strategic cycle for EUPHA, grounded in collective vision and shared ownership across our network. The 2025–2030 Strategy marks a new chapter for European public health, guided by four principles: **Evidence, Equity, Empowerment, and Engagement**.

We warmly thank our extraordinary EUPHA and EPH teams whose commitment and adaptability have carried us through transition and growth. Their professionalism, creativity, and solidarity remain the backbone of our organisation. Four new colleagues are joining us in 2025 to strengthen our operations and deliver on our renewed mission.

Our volunteers, from the Executive Council and Governing Board to Section Presidents, Vice-Presidents, EUPHAnxt and EPH Boards, devote thousands of hours each year to improving Europe's health. We are profoundly grateful for their leadership and generosity.

This year, EUPHA and its partners demonstrated that collaboration across disciplines, countries, and institutions is our greatest strength. Despite financial uncertainty and political headwinds, we launched new strategic partnerships, co-signed international MoUs, defended civil-society space for health, and achieved a 97/100 score in the EU Framework Partnership Agreement.

As we look ahead, we remain united to connect science and practice, exchange expertise, influence policy, and build a healthier, fairer, and more sustainable Europe for all.

**Tit Albreht**  
EUPHA president 2024-2026

**Charlotte Marchandise**  
EUPHA executive Director

## The importance of public health in 2026

The start of 2025 marks a decisive moment for public health in Europe. In a changing geopolitical and societal landscape, from misinformation and democratic fatigue to climate disruption and persistent inequalities, the public health voice must remain strong, science-based, and united.

EUPHA continues to provide independent, evidence-based advice to decision-makers and to advocate for policies that protect and promote health for every person in Europe. We place special focus on mental health, health equity, and systems resilience, while promoting cross-sectoral approaches that connect climate, digitalisation, and social justice.

Our work demonstrates that public health is not only a technical field but also a democratic one: protecting evidence, participation, and trust is vital for Europe's future.

## About EUPHA

---

EUPHA envisions itself as a dynamic and innovative knowledge hub, acting as an interface and platform for its members, the EU, and the WHO. EUPHA aims to provide substantial value to our members through the dissemination of critical information and support for capacity-building efforts. Our strategic direction is to ensure coherence in all our objectives, from sense-making to graphic representation and governance, thereby giving clear meaning and purpose to our actions.

### Our mission

Our mission is to facilitate and activate a strong voice for the public health network by enhancing the visibility of evidence and strengthening the capacity of public health professionals. Our mission involves:

- Ensuring that all parts of Europe have a strong evidence base, built on sustained investments in research capacity and data, as well as capacity for knowledge translation to support policies that impact health.
- Identifying, developing, and advocating for actionable policy recommendations in all sectors to improve health.
- Supporting capacity-building and collaborations that can achieve public health action in practice.

### Our vision

Our vision is to achieve improved health and well-being and to narrow health inequalities for all Europeans. We aim to support our members in improving health across Europe, adding value to the efforts of stakeholders in regions and states, within national and international organisations, and among individual public health professionals. For Europeans to achieve the highest possible level of health, we work on providing independent and authoritative analysis of the evidence, combined with targeted advocacy to achieve coordinated action by all key stakeholders.

Our vision:

- Builds on the commitments of our governments and international agencies to achieve the health-related Sustainable Development Goals.
- Recognizes the importance of placing Health in All Policies.
- Draws on the Vienna Declaration to embrace the entire range of health determinants, including biological, social, environmental, occupational, behavioural, political, and commercial, the health care system, and everything that influences the health of our planet.

Our vision is embedded in Public health values: equity, non discrimination, support of marginalised communities, inclusiveness.

### Our method

#### **A member-based association with transparent and shared governance...**

EUPHA as a member-based association works in collaboration with the National Public Health Associations across Europe. This work allows us to bring together a robust community of Public Health Actors. EUPHA ensures coherence in all objectives, from sense-making to transparent governance, thereby giving clear meaning and purpose to our actions.

The vision and the values of Public Health are the guide for the Office team and all the structure.

#### **...reaching out to Communities across Europe...**

Inspired by our vision to achieve a better health and well-being for all in the European region and to narrow health inequalities for all Europeans, we actively work at developing social participation and community engagement in Public Health across Europe, as it has proven to:

- Enhance the relevance and effectiveness of public health policies.

- Empower communities, leading to greater health equity and better health outcomes.
- Build trust between the public and health authorities, which is crucial for response in public health emergencies, a better resilience of the health system and social cohesion

Our members are themselves close to the people and European Population, and our sections work with people with lived experience as patients. Hence, EUPHA is able to reach out to communities and have a substantial impact at population level through our members and sections.

- We encourage the development of interventional and participatory research and citizen science supported by a coordinated effort of our established sections including the Health Promotion Section and Health Service Research Sections. In this regard, as a science-based organisation, our first goal is to engage citizens through our main activities.
- Our new field of work with local governments through the partnership with WHO Healthy Cities brings us closer to act at the local level upon social, ecological, commercial determinants who are the main cause of NCDs and burden of disease in Europe leading to significant costs in the health system.
- Our capacity building activities ranging from Spring, Summer and Winter Schools has proven to be an outcome that allows to reach to a wide spectrum of public health professionals including community health workers, an emerging profession that needs institutionally recognized training to increase recognition, who are the outreach arm acting directly with and for populations in particular vulnerable groups. We will work in collaboration with ASPHER to develop, in line with the competency framework, a new accreditation proposition to empower and develop professional competencies and recognition of those actors.

We are working on making EPH conferences more accessible to diverse populations and health workforce to include community health workers and people with lived experience through:

- Partnering with our sections to showcase community engagement.
- Organising pre-conferences on topics of co-creation and community participation.
- Inviting individuals with lived experiences to participate in the main conference, particularly through the Mental Health Section.
- Providing economic support for patients and community representatives to make the attendance costs affordable
- Implementing new scoring strategies for abstracts to reflect inclusion and incorporate community perspectives.
- Offering conferences open to the local population and the public.
- Hosting satellite events with civil society and local public health practitioners to raise awareness, empower communities, and promote local/national best practices.

#### **... fostering Inclusivity.**

We aim to create an environment that allows meaningful participation from marginalised and vulnerable groups, overcoming barriers such as language, literacy, and technological access.

### **From Triple A to the 4Es: a new strategic cycle**

Since 2020, EUPHA's Triple A approach — **Analysis, Advocacy, Action** — has positioned us as Europe's collective voice for evidence-based public health. Building on this success, the 2025–2030 Strategy was co-created through surveys, webinars, and a strategic retreat with our members and partners.

#### **Our guiding principles: the 4Es**

Evidence – Generate, curate, and translate public health science for policy impact.

Equity – Narrow health inequalities and promote Health in All Policies.

Empowerment – Build competencies and recognition for the public health workforce through EUPHAcademy and partners such as ASPHER and WHO.

Engagement – Foster collaboration across disciplines, sectors, and communities to strengthen social participation and trust.

### **Our strategic objectives**

Strengthen and connect science within and between disciplines (creating synergies across Sections and projects).

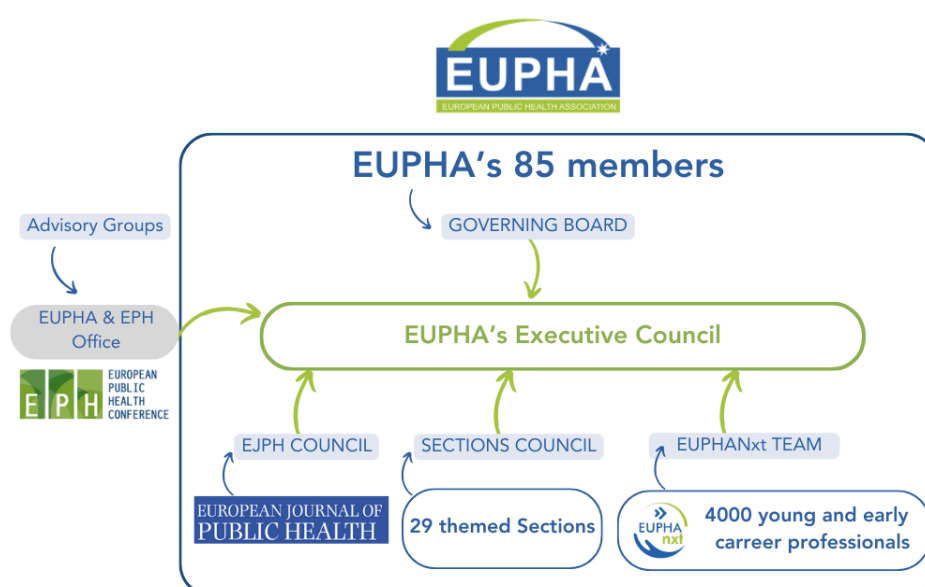

Empower policymakers and stakeholders to translate evidence into decisions (through advocacy, training, and dialogue).

Build capacity for the public health workforce, expanding accreditation, micro-credentials, and career pathways.

Engage society by strengthening EUPHW, citizen science, and community participation.

## **STRUCTURE AND GOVERNANCE**

### **The Executive bodies**

*Figure 1: EUPHA general governance*

Executive Council: Charged with the management of the association, composed of prominent public health experts in Europe, including the EUPHA president, past president, president-elect, treasurer, secretary, EJPH editor-in-chief, Section Council chair, and EUPHAnxt coordinator.

Governing Board, representing the Members: The highest authoritative body in EUPHA, comprising delegates appointed by the members of each country. Institutional members have a non-voting seat. *See members below.*

EJPH Council: Coordinates the general policy for the European Journal of Public Health (EJPH) and EUPHA's activities related to the Journal.

Section Council: Represents the interests and common concerns of all EUPHA sections, facilitates relations between sections and other relevant bodies, and makes recommendations to the annual European Public Health conference programme.

EUPHAnxt Team: The EUPHAnxt team supports the activities of EUPHA. EUPHAnxt is EUPHA's network for students and early career researchers, policymakers and professionals in the field of Public health. It gathers around 4000 professionals across Europe.

## The Office

The EUPHA office is responsible for the day-to-day running of EUPHA. EUPHA office has weekly meetings to discuss all issues of the work plan, to execute the concrete operational framework and for upcoming questions and new initiatives. Related to the activities included in the operating grant, the EUPHA office team consists of the Executive director, the Chief Finance and Administration officer, the Communication officer, the Network coordinator, the Policy officer and the Office manager.

79% of the office is dedicated to EUPHA's activities on the grant, the rest of the time being dedicated to the EPH Conference Foundation.

Thanks to the Operating Grant 2024-2025, and with confidence as EUPHA scored a 97/100 for the FPA 2025-2026, we were able to recruit several new people to work in EUPHA.

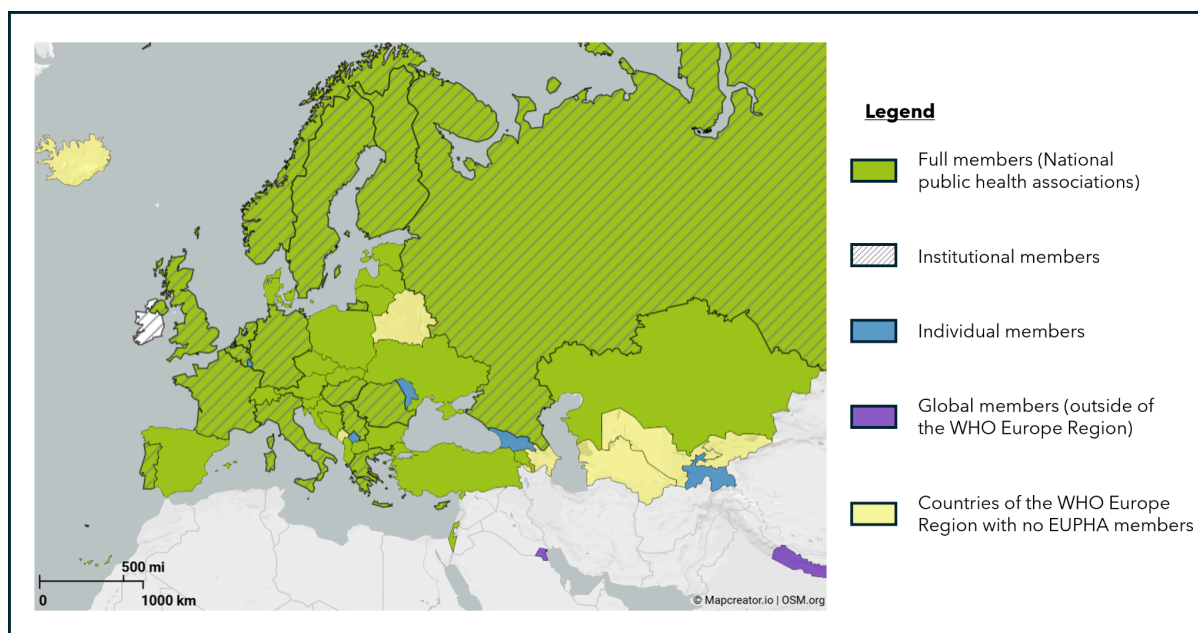

## The Members

EUPHA is an international, scientific organisation, bringing together around 35,000 public health experts for professional exchange and collaboration throughout Europe.

EUPHA now (October 2025) has 72 members from 36 countries, including members from all EU Member States. Our members include:

- 41 national associations of public health
- 31 institutional members

The exhaustive list of our members is available in [Annex 1](#).

*Figure 2: Map of EUPHA members*

Becoming a member of EUPHA grants benefits:

#### Advocacy, Networking and Policy Influence

- EUPHA members are connected with a dynamic European-wide network comprising over 37,750 public health experts and partners from institutions and NGOs
- Insights into EU policies and decision-making processes, actively participating in campaigns within the influential "Brussels bubble".
- Opportunities to contribute to consultations, ensuring members' voices are heard in shaping European and global public health policies.
- EUPHA can endorse national and local advocacy initiatives by its members, amplifying their impact on public health issues.
- Actively engage in European-level public health advocacy, contributing to the development of policies that resonate globally and contribution to consultations

#### Collaborative Action, Learning and Resources

- Full participation in all EUPHA activities, including exclusive access to the Learning & Resources Module, featuring materials for capacity and skills building.
- Access to a platform for disseminating the latest research and work of EUPHA Sections, fostering information sharing and collective impact.
- Leverage EUPHA's network through sections, conferences, EU projects to facilitate collaborative actions.
- Participation to mentorship programmes to support the next generation of Public Health professionals.

#### Promotion, Visibility and Financial Benefits:

- 100€ reduction on registration fees for attendance at all European Public Health Conferences
- Members can publish news items in the EUPHA newsletter at no cost
- 20% reduction on Open Access charges when publishing in the European Journal of Public Health, enhancing visibility and accessibility of research.

### The 29 Sections

To facilitate building and disseminating evidence throughout Europe, EUPHA hosts, approves, and coordinates themed networks, called EUPHA sections, for specific public health themes. These

sections are international and open to all public health experts, bringing together researchers, policymakers, and practitioners for evidence generation, knowledge sharing, and capacity building.

EUPHA has 29 operational sections on a wide range of public health topics, supported financially and organisationally by the EUPHA office. The presidents of the sections are renowned experts in their fields, supported in subject expertise by vice-presidents and steering groups.

The exhaustive list of our sections is available in [Annex 2](#).

The activities of the 29 sections are detailed [here](#).

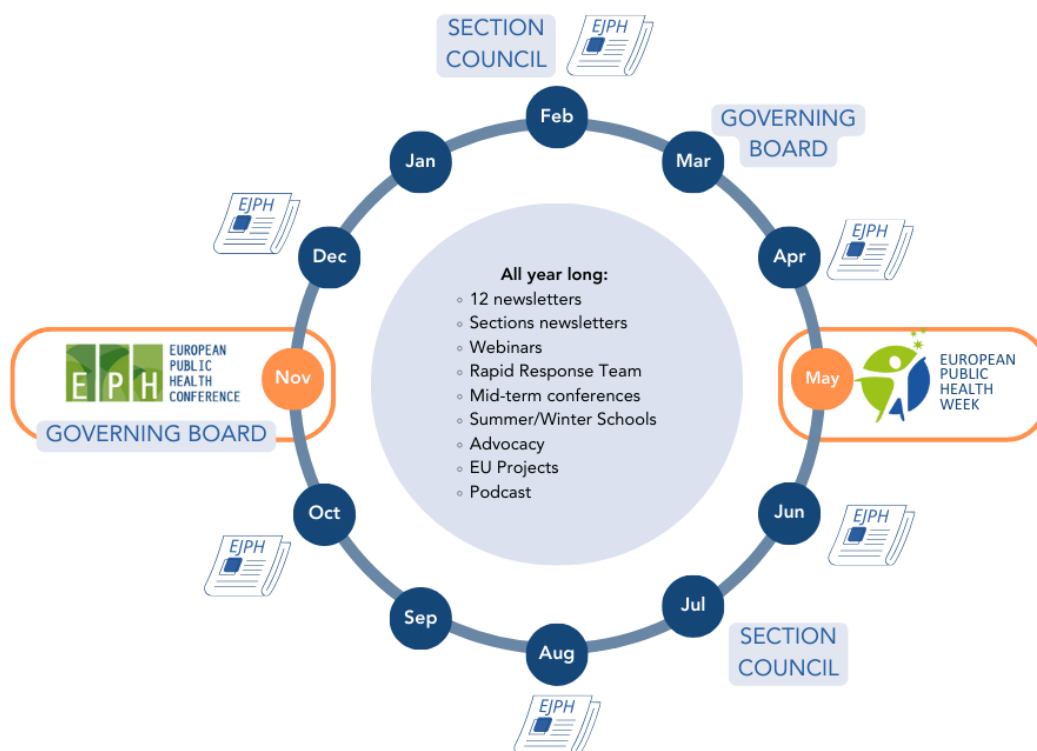

### **The Working and Advisory groups**

- ❖ European Public Health Week Steering Committee
- ❖ Good EUPHA Practice Committee
- ❖ Advisory nomination committee
- ❖ Green club
- ❖ Working group on SDG5 -gender equality and women' empowerment

## ACTIVITIES

### TIMELINE OF ACTIVITIES

*Figure 3: EUPHA timeline of activities*

### European Public Health Week (EUPHW) - 7th Edition

**12th - 16th May 2025 | 'Innovation for Resilience: Shaping a Sustainable Future'**

The EUPHW aims to connect those who contribute to better public health across the WHO European Region, to promote collaboration among the public health community, and to boost EUPHA's profile and visibility. The theme and overall purpose of this annual initiative is to join forces for healthier populations.

The 2025 edition of European Public Health Week (EUPHW) continued to build momentum as a pan-European communications campaign, raising awareness of critical public health topics, amplifying trusted messages, and strengthening connections across Europe's public health ecosystem. Held from 12–16 May 2025, the campaign was coordinated by the European Public Health Association (EUPHA) and co-funded by the EU4Health programme.

This year's overarching theme "Innovation for Resilience: Shaping a Sustainable Future" reflected a timely focus on how innovation, collaboration, and forward-looking strategies are central to building more equitable and robust health systems.

#### **Goals of EUPHW 2025**

EUPHW 2025 set out to:

- ❖ Highlight the role of public health in driving innovation and systems resilience;
- ❖ Build trust and public understanding around health challenges and solutions;

- ❖ Foster collaboration across disciplines, sectors, and borders;
- ❖ Support inclusion by amplifying youth voices and reaching communities across Europe.

As every year, the seventh European Public Health Week (EUPHW) was actively supported by the WHO Regional Office for Europe, the European Observatory for Health Systems and Policies, and the European Commission. Each day of the week focused on a specific public health theme.

Each weekday focused on a distinct theme, addressing topics such as planetary health, systems change, the life course, and the next generation of public health leaders. The daily themes were developed collaboratively with input from the Steering Committee, EUPHA Sections, and key partners, including WHO Regional Office for Europe, EuroHealthNet, and Mental Health Europe.

## Planning and coordination

### Key messages

1. Innovation drives resilience – Public health must embrace innovation to build stronger, more sustainable systems.
2. Collaboration strengthens impact – EUPHW fosters cross-sector dialogue and engagement at all levels.
3. Public health is about people and equity – Achieving better health outcomes requires inclusive policies and community-driven solutions.
4. Knowledge leads to action – EUPHW is a platform for sharing best practices, scientific insights, and practical solutions.
5. EUPHW belongs to everyone – This is your event, empowering individuals and organizations across Europe to raise awareness, share knowledge, and drive change in public health.

### Standout events and activities

#### A high-level launch event at the European Parliament

With a Brussels representation, the EUPHW had a special focus in connecting with EU policy makers.

**For the first time**, European Public Health Week 2025 was launched at the **European Parliament** on 12 May with a **high-level** hybrid event live from the European Parliament in Brussels. Under the theme Innovation for Resilience: Shaping a Sustainable Future, the session brings together public health leaders, EU policymakers, and on-the-ground professionals to explore how innovation can drive sustainable, resilient health systems in Europe and beyond.

Co-moderated by Charlotte Marchandise, Executive Director of EUPHA, and Dr Dheepa Rajan, Senior Advisor at the European Observatory on Health Systems and Policies, the launch event features a distinguished panel of speakers:

- ❖ Dr Raed Arafat, Secretary of State of Romania and Chair of NATO's Joint Health Group
- ❖ Dr Hans Kluge, Regional Director for WHO Europe
- ❖ Lorena Boix Alonso, Deputy Director-General, DG SANTE, European Commission
- ❖ MEP Nicu Ștefănuță, Vice-President of the European Parliament
- ❖ Laurent Muschel, Director, DG HERA, European Commission
- ❖ Dr Pamela Rendi-Wagner, Director, European Centre for Disease Prevention and Control (ECDC)
- ❖ The session featured powerful civilian perspectives from Ukraine and Romania, offering real-life insights into public health innovation in times of crisis:
- ❖ Yuliia Ovchar (Ukraine) – on maintaining healthcare services amid conflict
- ❖ Irina Mateescu (**Romania**) – on lessons from past public health emergencies

The event concluded with closing remarks from Tit Albreht, EUPHA President, highlighting key takeaways and the road ahead for public health in Europe.

### The two-day BrailleRap Hackathon in Brussels

This inclusive innovation event exemplified the week's theme—Innovation for Resilience— by challenging participants to adapt 3D printing technology to improve accessibility for visually impaired communities. Taking a collaborative approach, the hackathon promoted open-source health tech, inclusion, and cross-disciplinary collaboration. It attracted engineers, students, and advocates working together to develop practical, replicable solutions to real-world challenges. The hackathon concluded with the donation of three fully-functional Braille embossers to Ligue Braille.

### Building an Advocacy Toolkit for Science Policy

This interactive workshop equipped young professionals with practical advocacy skills to shape health policy. Participants learned how to craft evidence-based messages, tailor communication for different stakeholders, use public speaking to present public health issues effectively, and harness social media for digital advocacy. The event offered a hands-on platform to connect, learn, and take the first steps in influencing real-world change - embodying the day's focus on preparing the next generation of public health leaders.

### Daily webinars

Each morning (Monday to Thursday), a live kick-off webinar opened the day with expert speakers, case studies, and examples from across Europe. These events attracted diverse audiences and provided a space for reflection, exchange and community-building.

Webinar	Monday 12 May – Mental health: health workforce at the centre	Tuesday 13 May – Global health: food systems, health security, climate and sustainability	Wednesday 14 May – Healthy ageing vs multimorbidities in a digital world	Thursday 15 May – Health equity and social determinants of health
Partner	WHO/EURO Mental Health Unit  Mental Health Europe  Health and Care Workforce Section	WHO/Europe  Global Health Section	WHO/EURO Ageing and Health programme  Healthy Ageing Section	EuroHealthNet  Health Promotion Section
Attendance	112	102	99	53

Webinar recordings were made available online, ensuring access for those unable to attend live.

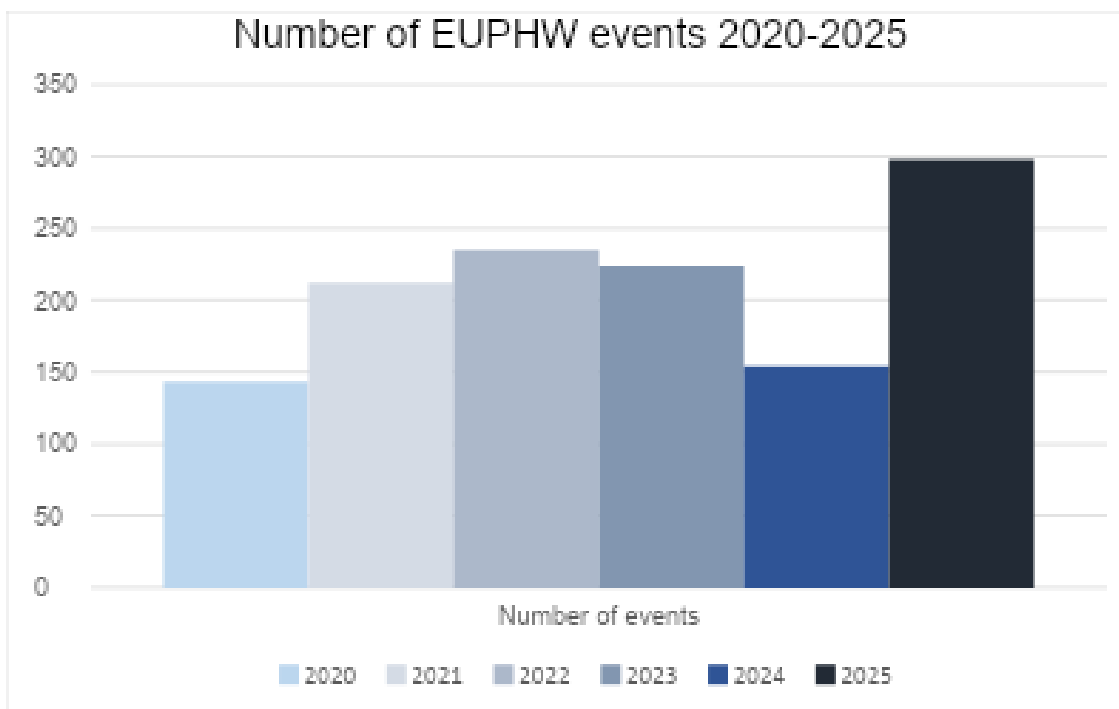

### Participation and reach

This year's campaign marked another year of growth and momentum:

- ❖ 298 events held
- ❖ 21 participating countries
- ❖ Events delivered in 14 languages
- ❖ Formats included: 183 in-person events, 103 online events and 12 hybrid events

Most events were locally organized (216 events) and tailored, illustrating EUPHW's grassroots strength and its ability to connect European-level messaging to real-world public health contexts.

For each theme of the EUPHW, there was an official kick-off webinar co-hosted by one of our partners and EUPHA:

- **Monday 12 May - Mental Health: Health Workforce at the Centre**  
Daily partners: WHO/EURO Mental Health Unit, Mental Health Europe, Health and Care Workforce Section
- **Tuesday 13 May - Global Health: Food Systems, Health Security, Climate, and Sustainability**  
Daily partners: WHO OneHealth Unit, Global Health Section
- **Wednesday 14 May - Healthy Ageing vs multimorbidities in a digital world**  
Daily partner: WHO/EURO Ageing and Health programme, Healthy Ageing Section
- **Thursday 15 May - Health Equity and Social Determinants of Health**  
Daily partner: EuroHealthNet, Health Promotion Section
- **Friday 16 May - Next generation: Public health of today and tomorrow**  
Daily partners: EUPHANxt and friends

***The European Public Health Week is not only a moment, it is a movement.***

## **EPH Conference - 18th Edition**

***12th - 14th November 2025 | 'Investing for sustainable health and well-being'***

EPH Conference is a foundation at the initiative of EUPHA, in charge of the organisation of the conference each year.

EUPHA provides a significant contribution to the scientific programme of the yearly EPH conferences. We do this together with a large number of European and international organisations and non-state actors.

## **Delegates**

For the second time in the history of EUPHA/EPH conferences, we had to close the registration of delegates before the start of the conference. With 2900 delegates, we have reached the maximum number of delegates allowed by the Helsinki conference venue. Due to fire and safety regulations, we are not allowed to admit more people.

Almost 330 of our delegates have registered as students or trainees, and 290 delegates are coming from the host country, Finland.

## **Abstracts**

Similar to the record-breaking year of 2024, the EPH Conference has once again received a high number of single abstract and workshop submissions. **3,294** abstracts of which **291** for workshops were received in total. 188 members of the International Scientific Committee from 35 countries reviewed the abstracts. The average score for single abstracts was **4,578** on a scale 1 to 7 (Lisbon 2024 – 4,442), the average score for workshops was **5,071** (Lisbon 2024 – 4,913). Single abstracts were scored by an average of **4,87** reviewers (Lisbon 2024 – 4,45), workshops by **4,88** reviewers (Lisbon 2024 – 4,69).

Based on the tracks and available rooms, the EPH Conference offered 176 session timeslots. It was decided to continue with PechaKucha tracks successfully introduced for the Lisbon 2024 Conference. It was decided to accept:

- ❖ 5 invitational workshops
- ❖ 117 high scoring workshops
- ❖ 141 single abstracts for 28 oral sessions
- ❖ 203 single abstracts for 26 pitch sessions
- ❖ 333 single abstracts for poster walks
- ❖ 1300 single abstracts for poster display
- ❖ 40 extra workshops just below cut off point for 2 PechaKucha tracks

## **Conference Statement**

The conference statement was published in October and has been signed by around 15 national public health associations and partners.

Read the full statement [here](#).

## **Accreditation**

The 18th European Public Health Conference, Helsinki, Finland, 12/11/2025 - 14/11/2025, has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 16.0 European CME credits (ECMEC®s).

## **Partners**

### **Organisers:**

- ❖ EPH Conference
- ❖ EUPHA
- ❖ Finnish Institute for Health and Welfare (THL)
- ❖ Society for Social Medicine in Finland

### **International partners for the plenary programme:**

- ❖ European Commission
- ❖ WHO Regional Office for Europe
- ❖ European Observatory on Health Systems and Policies
- ❖ ASPHER
- ❖ EuroHealthNet
- ❖ EHMA

### **Partners for specific activities (lunch symposiums)**

- ❖ THL
- ❖ ViiV Healthcare

- ❖ Social Insurance Institution of Finland (KePALVA Consortium)
- ❖ Wellbeing Services County of North Savo,
- ❖ WHO Regional Office for Europe
- ❖ International Federation of Red Cross and Red Crescent Societies (IFRC)
- ❖ OECD

## **Programme**

### **Lunch Symposiums**

Eight lunch symposiums were organised (last year nine). They are not part of the parallel scientific programme. They are free to attend by registered delegates of the main EPH Conference.

#### **Wednesday 12 November, 12:55 – 13:55 (Helsinki time)**

[Patients and clients with high and multiple social and health care use: real-world effectiveness, interventions and indicators](#)

Organised by PALVA Consortium, Wellbeing Services County of North Savo, Finland

[The European Health Report 2024: the importance of data for guiding public health action](#)

Organised by WHO Regional Office for Europe

[The heart of resilience: lessons from mental health support for children and young people affected by conflict in Ukraine](#)

Organised by the International Federation of Red Cross and Red Crescent Societies (IFRC)

[The European Health Report 2024: the importance of data for guiding public health action](#)

Organised by WHO Regional Office for Europe

[The heart of resilience: lessons from mental health support for children and young people affected by conflict in Ukraine](#)

Organised by the International Federation of Red Cross and Red Crescent Societies (IFRC)

#### **Thursday 13 November, 12:55 – 13:55 (Helsinki time)**

[Birth cohorts as a tool for advancing public health and sustainable societies](#)

Organised by Finnish Institute for Health and Welfare (THL), Future Finland Birth Cohort

[Innovative approaches to HIV prevention and treatment](#)

Organised by ViiV Healthcare

[Late Breaker: Taking responsibility: Public health and the duty to protect in conflicts. What are we doing in times of war and attacks on human rights?](#)

Organised by EUPHA

#### **Friday 14 November, 12:55 – 13:55 (Helsinki time)**

[The hidden effects of social security](#)

Organised by Social Insurance Institution of Finland (Kela), Research Unit, Finland

Global challenges, local leaders: conversations for the next generation of public health leaders

Organised by EUPHANxt, WHO Regional Office for Europe

### **Pre-conferences**

The full [pre-conference programme](#) with 23 sessions is held on Tuesday 11 November. Section events can be found in the [appendix](#)

## EUPHA Member events

As of the second half of 2025, EUPHA offers EUPHA-members only online events.

### **Bi-monthly Members Lunch with EUPHA**

- ❖ Strengthening public health careers in Europe  
22 October 2025 / 11:00 - 12:00 CEST  
*Led by: SESPAS*
- ❖ Two more sessions are scheduled for 18 December 2025 / 12:00 - 13:00 CET and 28 January 2026 / 12:00 - 13:00 CET. More information will follow in due course.

### **Annual Member training sessions**

- ❖ Being in the media: turning challenges into opportunities  
16 October 2025 / 14:00 - 16:00 CEST  
*Led by: Ricardo Mexia, Public Health Doctor, Epidemiologist, Politician. MD, MPH, EPIET, FRSPH*
- ❖ Social participation in public health: from resolution to practice  
25 November 2025 / 14:00 - 16:00 CET  
*Led by: Vesna Kerstin Petrič, Head Office for Cooperation with WHO, Ministry of Health, Slovenia*
- ❖ Health in All Policies for resilience, preparedness and security in a changing world: Time to train  
3 December 2025 / 11:00 - 12:30 CET  
*Led by: Julian Fisher, Global Network for Health in All Policies*

## European Journal of Public Health - EJPH

The European Journal of Public Health (EJPH) is a fully Open Access multidisciplinary journal in the field of public health, publishing contributions from social medicine, epidemiology, health services research, management, ethics and law, health economics, social sciences, and environmental health. It aims to strengthen the scientific and independent voice in public health and health services.

The EJPH is published bimonthly and each issue (6 per year) includes a 'European public health news' section, which includes columns from the EUPHA president, EUPHA office, WHO Europe Regional Director, and Health Commissioner of the European Commission. The journal provides a forum for discussion and debate of current international public health issues with a focus on the European region.

The journal is part of the [Committee on Publication Ethics](#) (COPE).

In addition to the regular issues, the journal also publishes supplements and e-collections, which allow for deep insights in specific public health topics.

The **supplements** are collections of five to fifteen papers, including an editorial written by the guest editor, and is particularly useful to analyze a topical public health issue.

In 2025, three supplements were published:

- ❖ Perspectives and Future Directions on the Prevention and Control of Vector-Borne and Zoonotic Diseases in the WHO Eastern Mediterranean Region
- ❖ Enhancing Public Health Leadership, Part A

## ❖ Piloting HealthData@EU – The European Health Data Space

The **e-collections** are selections of 8-15 papers published during the past years in the EJPH, accompanied by a newly written editorial. The e-collections specifically target policymakers, summing evidence and recent findings on a debated topic.

In 2025, one e-collection was published on Youth Mental Health.

### **Brief statistics on manuscripts**

The number of original manuscripts received is still increasing after the dip of submissions in 2022-23, while the proportion of accepted manuscripts has decreased. The last years' strong variations are most probably due to both the COVID-19 pandemic and transition to open access. The impact factor dropped to 3,7 last year, as in many other journals, again probably due to the COVID years, but has now increased to 3,9, better than some benchmarking journals. Moreover, the EJPH is in the top 25% of journals (Q1, SJR).

	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025 Jan-Sep
Manuscripts received	959	901	950	1047	974	1511	1058	546	632	801	695*
% accepted	20%	21%	21%	21%	19%	12%	14%	26%	35%	24%	26%
Manuscripts published	195	180	181	192	195	194	203	145	172	172	109**
Impact Factor	2.751	2.431	2.782	2.459	2.234	2.391	3.367	4.424	4.4	3.7	3.9

\*Including original manuscripts (655), commentaries (21), editorials (5), and viewpoints (5).

\*\*Original manuscripts including short reports and systematic reviews, published in four issues of 2025.

In the four issues published in 2025, 109 original manuscripts, 6 editorials, 5 viewpoints, and 2 book reviews were published. Each of the four issues also had a section with European public health news from EUPHA and partner organizations.

In 2025, manuscripts have been submitted from 71 countries across all continents. The highest number of submissions were received from China (158), the United Kingdom (48), Finland (38), Spain (36), Italy (34), Sweden (31), France (27), Germany (25) and the Netherland (20).

The highest number of accepted papers originated from the United Kingdom (22), Sweden (20), Finland (17), the Netherlands (15), Spain (14), Italy (14), Germany (11) and France (9).

Average number of days from submission to first decision increased from 24.8 to 28.4 days, whereas the time from submission to final decision decreased from 29.4 to 16.2 days.

### **Editorial Board**

#### Editor-in-chief

Peter Allebeck, Sweden

#### Editors

Charles Agyemang, Amsterdam University Medical Centre, the Netherlands

Diana Delnoij, Zorginstituut Nederland, Diemen, the Netherlands

Thomas Dorner, Medical University of Vienna, Austria

Chiara de Waure, Università degli Studi di Perugia, Italy

For the list of [Associate Editors](#) we refer you to the webpage.

### Partners

Our partners in the organization of the EJPH are:

- ❖ Oxford University Press, the publisher of the journal;
- ❖ Department of Public Health Sciences at the Karolinska Institute, Stockholm, where the editorial-in-chief is based.

### EUPHANxt

EUPHANxt aims to empower and connect the next generation of public health professionals across Europe. They provide a dynamic platform for students, young professionals, early career researchers, and policymakers to collaborate, learn, and lead. Through fostering interdisciplinary partnerships, sharing innovative ideas, and advocating for progressive public health policies, they strive to shape a healthier future for all.

### **For 2025–2027 we're focusing on five strategic priorities:**

- ❖ Strengthening youth leadership in public health
- ❖ Bridging academia and practice
- ❖ Expanding mentorship and professional development
- ❖ Fostering inclusive and engaging networks
- ❖ Building strong, sustainable governance

### Activities during the EUPHW2025

- ❖ EUPHANxt Workshop: Building an Advocacy Toolkit for Science Policy
  - During the 7th European Public Health Week (12–16 May 2025), EUPHANxt organised the workshop *“Building an Advocacy Toolkit for Science Policy”* in collaboration with EuroNet MRPH and YoungWFPHA. The session, held on the final day of the week, featured distinguished speakers including Charlotte Marchandise (Executive Director, EUPHA), Professor Martin McKee (London School of Hygiene & Tropical Medicine), Jennifer Traini (Head of Communications, 5Rights Foundation), and Sarah Abitbol (Head of Policy, EUPHA). The workshop attracted strong participation and fostered insightful discussions on strengthening advocacy capacities among young public health professionals.

### Activities during the EPH Conference 2025

#### Tuesday, November 11

- ❖ Pre-conference: The Policy Toolbox: tools for policy engagement in public health (9:00-17:00)

#### Wednesday, November 12

- ❖ Round table: From First-Timer to Conference Pro: A Guide to the 18th European Public Health Conference (9:00-10:00)
- ❖ Scientific session: How do we enable better health outcomes and development in children? A European health literacy lens (15:15-16:15)
- ❖ Skills building seminar: Enhancing your elevator pitch: persuading a policymaker in less than two minutes (16:45-17:45)
- ❖ Moderation of Plenary 2: Public health in the era of misinformation and disinformation by EUPHA (18:00-19:00)

#### Thursday, November 13

- ❖ Join the EUPHANxt Network meeting (8:00-8:45)

- ❖ Moderation of Plenary 3: Advancing mental health in all policies to promote and protect youth mental health and well-being: a cross sectoral imperative for Europe's youth and economy, by WHO Regional Office for Europe (10:30-11:30)
- ❖ Round table: EUPHANxt Mentoring Programme: insights from Mentees (15:15-16:15)

#### Friday, November 14

- ❖ Lunch Symposium: Global challenges, local leaders: conversations for the next generation public health leader (12:55-13:55)

#### ❖ **Fellowship programme**

The EPH Conference Fellowship Programme, launched in 2018 by EUPHA and EUPHANxt, continues to offer students and young professionals an active role in the European Public Health Conference. In 2025, EUPHANxt received 78 applications from Europe and beyond, with gender balance again favouring women. Six fellows were selected to collaborate with the EUPHANxt and EPH Conference teams, contributing to communication and dissemination activities across multiple platforms. Their responsibilities included conducting short video interviews with EUPHA Section Presidents and Vice-Presidents, and producing social media content highlighting daily key takeaways on Instagram and LinkedIn. Fellows also participated in mentoring sessions with senior public health experts and attended both plenary and selected parallel sessions relevant to EUPHA's thematic areas. A new element introduced was the collection of post-conference written testimonials from each fellow, summarising the highlights of their fellowship experience and providing a reflective closure to the programme.

#### ❖ **Abstract tutoring programme**

The Abstract Tutoring Programme offers young and less experienced researchers the opportunity to receive feedback on their abstracts from experienced reviewers, particularly supporting those with limited access to academic mentorship or for whom English is not a first language. Administered by the EUPHA Office and promoted through EUPHANxt's communication channels, the 2025 edition was open from 1 February to 9 April, aligning with the EPH Conference abstract submission deadline. Activities included updates to the tutor guidelines, recruitment of reviewers through EUPHA Sections, and active promotion via newsletters and social media. In 2025, 17 abstracts were reviewed by 13 reviewers, of which 13 were submitted and 11 accepted (85%) maintaining a high success rate comparable to previous years (last year, 21 abstracts were reviewed but only 10 were accepted 67%). Feedback indicated that reviewers were engaged and provided constructive input. For future editions, improvements will focus on enhancing the visibility of the programme, including earlier and more frequent promotion, and on strengthening reviewer engagement by informing Section Presidents and Vice-Presidents during the February coordination meeting.

#### **Mentoring programme 2024-2025 (Second Edition)**

The second edition of the EUPHANxt Mentoring Programme (autumn 2024 – spring 2025) built upon the success of the inaugural round, offering tailored mentoring opportunities for early-career public health professionals across Europe. This edition included 16 mentees from 10 countries, matched with 10 mentors across 8 thematic areas, drawn from the EUPHA network, including the Section Council, Executive Council, and Governing Board. Mentoring took place either individually or in small groups of up to two mentees per mentor, enabling a higher mentor-to-mentee ratio and reducing dropout rates. The programme was launched with an online event in autumn 2024, followed by an informal in-person meeting during the EPH Conference 2024, fostering stronger connections between mentors and mentees. Feedback has been highly positive, with several participants expressing interest in maintaining collaboration beyond the formal programme. Furthermore, mentors and mentees jointly contributed to the 18th European Public Health Conference 2025 in Helsinki, co-organising a workshop that received an evaluation score of 5.8/7. To increase visibility and share experiences, five blog posts authored by mentors and mentees were published through EUPHA's

communication channels. Based on the evaluation of this edition, the third edition of the programme is already being organised, with its launch planned for October 2025.

### **Youth Advisory Hub**

EUPHANxt launched in July the Youth Advisory Hub. The hub is established to strengthen youth and early-career professionals engagement within EUPHA. Its primary purpose is to ensure closer alignment of EUPHANxt activities with the priorities of the EUPHA Sections.

The Youth Advisory Hub will:

- ❖ Provide strategic guidance to EUPHANxt activities from a youth perspective;
- ❖ Facilitate stronger connections between EUPHA Sections and EUPHANxt;
- ❖ Serve as a platform for students, young professionals, and early-career public health experts to contribute to EUPHA's mission;
- ❖ Promote inclusivity, innovation, and youth engagement across EUPHA initiatives.
- ❖ Ensure governance sustainability and accountability within EUPHANxt Core Group

Each Section was invited to nominate one youth representative to serve as a member of the Hub. Until now, twenty EUPHA Sections nominated one representative. Representatives are students, young professionals, or early-career experts (preferably under 35, but not mandatory).

Three seats will be allocated to students, young professionals, and early-career public health professionals based on applications submitted to the EUPHANxt team to ensure diversity and inclusion.

The kick-off meeting took place on October 10 online and will be followed by another in-person meeting during the conference.

### **Sections Activities**

In order for EUPHA to be able to provide the evidence in a wide array of topics, EUPHA is using thematic networks called EUPHA sections. The latter continued to be extremely active, giving EUPHA visibility all year round. It is therefore essential that EUPHA sections are supported in all their activities.

The sections continue to have a large interest with numbers of section members rising for all sections.

<b>EUPHA Section</b>	<b>2021</b>	<b>2022</b>	<b>2023</b>	<b>2024</b>	<b>2025</b>

Urban Public Health – URB	2089	2304	2523	2732	2982

Sections have also been actively involved in all EUPHA's events and activities and at advocating for public health throughout the year.

### **Organising events during the EPH Conference**

All EUPHA sections are active at the 18th European Public Health Conference (EPH2025) with a total of 16 pre-conferences, 73 workshops, 25 Pecha Kucha workshops, 31 'join the network'-meetings.

### **Organising events during the EUPHW**

The Sections represent a wealth of expertise in specific public health areas and their active involvement ensures that the EUPHW content is scientifically robust and covers the full spectrum of public health topics.

### **Sending regular newsletters**

Sections have their own newsletter in which they communicate updates and information with their members.

### **Organising Spring/Summer/Winter schools**

#### **Midterm conference: Responding to challenges in health and care workforce: innovative research, policies and practices**

March 20-21 2025, Budapest, Hungary

Organised by: EUPHA Health and care workforce section

#### **6<sup>th</sup> International Summer School in Public Mental Health - Trauma-informed Public Health, approaches to resilience and trauma-informed public health**

June 2-6 2025, Gdańsk, Poland

Organised by: EUPHA Public mental health, Medical University of Gdańsk, Partnering with ASPHER

#### **Institutionalising HIA in Europe for better supporting decision-making processes**

June 3-4 2025, Madrid, Spain

Organised by: EUPHA Health impact assessment section and the Spanish Ministry of Health

#### **International Symposium: Society, Nutrition and Chronic Disease Prevention: Time for a Paradigm Shift**

June 5-6 2025, Pozzilli, Isernia, Molise Region, Italy

Organised by: Neuromed, Federico II University, Naples, Italy, EUPHA Chronic diseases section, Western University Canada

### **Ethics, values and law for good public health practice and policy**

June 18, Royal College of Physicians, London, United Kingdom

Organised by: EUPHA Ethics in public health section, Association Schools of Public health in Europe, Global Network for Academic public health and the Faculty of public health

### **First European Public Health Economics conference**

June 26-27 2025, Palermo, Italy

Organised by: EUPHA Public health economics section co-organised with the Società Italiana d'Igiene, Medicina Preventiva e Sanità Pubblica (SiTi), the Italian Health Economics Association (AIES) and the BEST-COST project.

### **2nd World Congress on Migration, Ethnicity, Race and Health**

September 2-5 2025, Lisbon, Portugal

Organised by: The Global Society on Migration, Ethnicity, Race and Health

### **Writing statements**

Public health advocacy is needed everywhere, whether it is urban planning, human rights, tobacco regulation, cross-border, data protection. All these regulations and policies have an impact on public health. The time for public health advocacy is now and the voice needed is yours. Without the involvement of public health professionals, others will shape the public health agenda and make decisions without the evidence-base we can provide.

The list of all Sections activities is available in [Annex 4](#).

For more information on EUPHA sections, please see our [dedicated webpage](#).

### **EUPHA as a partner in European projects**

In 2025, EUPHA was involved in several European projects and was approached by numerous institutions and universities to join future consortia. This continuous engagement in European projects remains a cornerstone of EUPHA's strategy for financial resilience, partner engagement, and long-term impact. Below is an overview of our current projects and those completed in the past year.

#### **HealthData@EU – link [here](#)**

The HealthData@EU Pilot project was funded through the EU4Health Programme. It aimed to set up concrete foundations for the future so-called European Health Data Space for the secondary use of health data. In December 2024, the second and final year of the project was completed. EUPHA contributed to the dissemination and communication activities, especially the coordination of the supplement to the [European Journal of Public Health](#), which was published in 2025.

#### **EARLY (Evaluating, Identifying and Reducing determinants of MHCs in Youth) – link [here](#)**

# EARLY

The EARLY project aims to reduce youth mental health conditions (MHC), including depression, anxiety, stress, and substance use disorders, by identifying and mitigating modifiable risk factors. It will develop a flexible exposure matrix for emerging risks, conduct interviews to understand youth and stakeholder perceptions, and gather multinational data on youth MHC. Using both qualitative and quantitative methods, EARLY will review mental health measures, analyze exposure data across demographics, and conduct focus groups and a cross-sectional survey in five

countries as the basis for a multicomponent intervention. Key outcomes will include a youth mental health model, an exposure matrix, actionable insights, accessible data, and strategies to reduce MHC risks in adolescence. In 2025, EUPHA contributed to EARLY's communication and dissemination efforts through a European Public Health Week webinar, an EPH Conference roundtable, and support for study recruitment activities.

#### **PROPHET** – link [here](#)

The PROPHET Project is one of the two projects that kicked-off in 2022. It is funded from the Horizon Europe Programme. The project aims to engage organisations and individuals to contribute to the construction of a Strategic Research Innovation Agenda (SRIA) and Roadmap to adopt Personalised Prevention approaches into EU health systems. Until now, EUPHA contributed to various communication and dissemination tasks within the project and organised events during the EPH conference, which led up to EUPHA's stronger engagement in policy deliverables in Q4 2025 and in the upcoming 2026.

#### **RIVER-EU (Reducing barriers to vaccine uptake in underserved communities)** – link [here](#)

The RIVER-EU project (“Reducing Inequalities in Vaccine uptake in the European Region – Engaging Underserved communities”) is a 5-year (2021-2026) project coordinated by the University Medical Center Groningen (UMCG) and funded by the Horizon 2020 Research Programme. Using an interdisciplinary approach, RIVER-EU will collect evidence on health system determinants of high and low vaccine uptake in eight specific contexts, which will be used to identify and/or develop interventions to reduce barriers to vaccine uptake in underserved communities and increase trust in the health system. EUPHA's continuous engagement via consortium meetings during EPH conference and an engagement during the European Public Health Week build the foundation for EUPHA's policy & communication activities in this project finalising in 2026.

#### **EuroHeartPath** - link [here](#)

The EuroHeartPath project (2025-2030) aims to transform cardiovascular care in Europe by improving the entire care pathway—from early detection to prevention—for four key conditions: heart failure, atrial fibrillation, ventricular fibrillation, and coronary disease. The project will map current practices in 45 hospitals across 15 countries and conduct 18 pathfinder studies to test the integration of innovations such as AI, digital tools, point-of-care testing, and robotics. By involving patients, cardiologists, and family doctors, EuroHeartPath ensures that solutions are practical and meet real needs. The ultimate goal is to identify and promote best practices that can improve outcomes for patients and strengthen health systems. From Q4 2025 onwards, under leadership of the EUPHA Chronic Diseases Section, EUPHA supports improvements in care delivery by sharing best practices across countries. EUPHA will be helping to ensure patient data is used ethically and safely, and contributing to the planning of how the project's results can be sustained and used in the long term.

### **Dissemination**

#### **EUPHA website**

In 2025, EUPHA completed a full redesign of its website to better serve its growing and diverse audience. Guided by the EUPHA 2025–2030 strategy, updated brand identity, and a new tone and style guide, the redesign shifts from an organisation-led to an audience-led structure.

Key improvements include:

- ❖ A cleaner, modern visual identity reflecting EUPHA's mission and values.
- ❖ Plain language content to improve accessibility and understanding.
- ❖ A new section for learning and capacity-building resources.
- ❖ A fully responsive, mobile-friendly design.
- ❖ Improved SEO and integrated analytics to strengthen engagement.
- ❖ Enhanced accessibility meeting WCAG 2.1 standards.

### **Monthly newsletters**

The EUPHA newsletter aims to build the knowledge of public health professionals worldwide and to increase the visibility of EUPHA as an association that builds capacity, knowledge and policy in the field of public health, with an emphasis on the European Region. The newsletter is published monthly, free of charge and available to all those with an interest in public health.

Each newsletter consists of the following sections:

- ❖ Editorial
- ❖ EUPHA news
- ❖ European Public Health Week (seasonal)
- ❖ European Public Health Conference
- ❖ Call for proposals, job opportunities
- ❖ Upcoming courses and conferences
- ❖ Interesting publications

The [EUPHA newsletters](#) are available on this webpage at the bottom of the page.

With over 37,700 subscribers (2024: 32,000) from 175 countries worldwide, the newsletter continues to be one of the most visible and highly appreciated tools of EUPHA. 85% of our subscribers come from Europe.

EUPHANxt and EUPHA's 29 Sections have their own dedicated newsletters.

### **EUPHA Rapid Response Team (RRT)**

In order to be able to provide the evidence-base on a large number of public health topics in a short period of time, EUPHA created the Rapid Response Team in 2019. This network of 40 public health experts, mainly linked to the EUPHA sections, can be contacted when a journalist or a policymaker needs to get an answer on a question related to a certain topic. The RRT then provides the evidence-based information within 48 hours.

In 2025 EUPHA was contacted on 9 occasions in which the RRT was activated.

### **Social Media**

#### ❖ **EUPHA social media**

EUPHA's social media presence focuses on LinkedIn and Bluesky, with LinkedIn continuing to deliver the strongest engagement and growth. In 2025 EUPHA made the strategic decision to retire from X (formally Twitter), but to keep the account active with ad-hoc webinar posts.

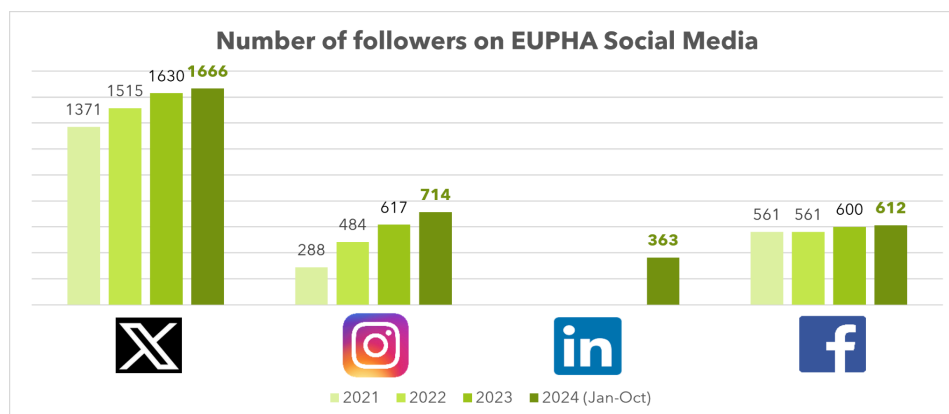

Platform	Followers	Growth (%)	Impressions
LinkedIn	17,948	+26%	285,527

Platform	Followers	Growth (%)	Impressions
Bluesky	1,164	Not available	Not available
X (Twitter)	8,516	-2%	Not available

## ❖ EUPHAnxt

## Advocacy and Policy Influence

Monitor policy processes, proactively inform policy agendas, and engage in effective communication with policymakers.

### Published advocacy

- ❖ A Joint Reaction to the Council Conclusions on Cardiovascular Health where EUPHA co-signed. To be found [here](#).
- ❖ The EU4Health Civil Society Alliance expresses concerns about restrictions on civil society's activities in the new mandate where EUPHA co-signed. To be found [here](#).
- ❖ Public Consultation on European Internal Security Strategy with the Global Law Enforcement & Public Health Association. To be found [here](#).
- ❖ Public Consultation 2025 Strategic Foresight Report Strengthening Resilience through Public Health Foresight. To be found [here](#).
- ❖ Public Consultation report European Food Safety Authority Evaluation of performance 2017-2024. To be found [here](#).
- ❖ Public Consultation report European Democracy Shield. To be found [here](#).
- ❖ Statement: EUPHA has concerns on the proposed EU Trade Secrets Directive. To be found [here](#).
- ❖ Statement: EUPHA condemns misinformation on autism, vaccines, and paracetamol. To be found [here](#).
- ❖ Helsinki statement From cost to investment: anchoring public health in sustainable systems. To be found [here](#).

### Representation in European meetings and groups

#### EUPHA' seats

The visibility of EUPHA as a solid partner with a research background has been strengthened. EUPHA continues to build the capacity and knowledge of policy-oriented organisations and has an official seat in numerous Committees, Advisory groups and Councils.

The exhaustive list of our seats is available in [Annex 5](#).

#### Attendance to high-level events and meetings

In 2025, EUPHA reinforced his efforts to be represented in high-level events, in Brussels, Copenhagen and different European countries and also in the World Health Assembly in Geneva.

The exhaustive list of our seats is available in [Annex 6](#).

## COLLABORATIONS AND PARTNERSHIPS

As a European organisation, EUPHA continued to invest in strong relationships with our European partners. Yet many of the challenges that we face are global and this means that we work together with global partners as well. We take a broad view not just geographically but also in the issues we engage with, recognising how policies in other sectors can have profound consequences for health. We indeed invest in broad alliances, including not only the 'usual public health suspects', but also partners from other disciplines and sectors.

EUPHA is a deliberately collaborative organisation, meaning that we are always keen to establish partnerships to build stronger evidence and increase the impact of our advocacy. Some of our partnerships are based on formal Memorandum of Understandings (MoUs) or work programmes, while others are more informal.

### Exhaustive list of EUPHA partners

#### → European institutions and agencies

ECDC - European Centre for Disease Prevention and Control	EUPHA has a 5-year collaboration agreement with ECDC Find more information <a href="#">here</a> .
EMA – European Medicines Agency	EUPHA is an eligible organisation for EMA and member of the EMA Policy Officers Group (POG). Find more information <a href="#">here</a> .
HERA - European Health Emergency Preparedness and Response Authority	EUPHA is represented in the Civil Society Forum of HERA's Advisory Forum. Find more information <a href="#">here</a> .
WHO-EURO World Health Organisation Regional Office for Europe	EUPHA has official Non-State Actor (NSA) status for WHO Regional Office for Europe. WHO Register of non-State actors is available <a href="#">here</a> . And as of November 2023 MoU.

#### → Civil Society Organisations

[ASPHER](#) - Association of Schools of Public Health in the European Region

[EFPC](#) - European Forum for Primary Care

[EHMA](#) - European Health Management Association

[EPHA](#) - European Public Health Alliance

[EuroHealthNet](#) - European Partnership for Health, Equity and Wellbeing

[ISE](#) - Initiative for Science in Europe

[WFPHA](#) - World Federation of Public Health Associations

#### → Multi-partner initiatives

[EU4Health Civil Society Alliance](#) - it brings together organisations that share the vision of a Europe where all people are as healthy as they can be throughout their lives.

[Coalition for Vaccination](#) - a group of European associations of healthcare professionals and student associations in the field of health and vaccination.

[EU Health Policy Platform](#) - EUPHA is active in several of the networks and stakeholder groups that are hosted on this platform.

#### → EUPHAnxt partners

[GHNGN \(Global Health Next Generation Network\)](#) -

[EuroNet MRPH \(European Network of Medical Residents in Public Health\)](#) -

[EFPSA \(European Federation of Psychology Students' Association\)](#) -

[EMSA \(European Medical Students' Association\)](#) -

[SOGH \(Swedish Organisation for Global Health\)](#) -

[CFHI \(Child Family Health International\)](#) -

[Irish Global Health Network Student Outreach Group](#) -

[NÖG \(Nachwuchsnetzwerk Öffentliche Gesundheit\)](#) -

[IPSF \(International Pharmaceutical Students' Federation\)](#) -

#### → Global level

EUPHA is a regional member of the World Federation for Public Health Associations (WFPHA) and as such an observer in the WFPHA general assembly.

### Memorandum of Understanding

Sustainable advancements in public health and health services can only be achieved through collaboration. Currently, we have formal collaborative agreements and official status as a relevant stakeholder with several European and international intergovernmental and non-governmental organisations, including ECDC, HERA, EMA, and WHO-Euro, and the European Observatory on Health Systems and Policies. We also work with civil society organisations such as EuroHealthNet, the European Public Health Alliance (EPHA), and the European Health Management Association (EHMA).

We are enhancing our collaboration with the Association of Schools of Public Health in the European Region (ASPHER) to create a more powerful, trained, recognized and efficient Public Health workforce in Europe. We aim at integrating our policy responses, amplifying advocacy and facilitate Public Health workers careers by:

- ❖ Sharing advocacy and policy work and synergizing our work with the EU
- ❖ Making our tools interoperable for our communities
- ❖ Working together on the Roadmap to professionalisation
- ❖ Working on a European Public Health Fellowship
- ❖ Working on the Labor market in partnership with WHO Euro

In 2025, we engaged in more collaborations with organisations aligned with EUPHA's values and commitment, to improve current and future health in Europe. This includes more political participation, exploring infrastructure for exchange with European Parliamentarians, and providing direct advice and scientific input on political items through voluntary EUPHA Section-based Rapid response team (RRT) presented in Activities.

# ANNEXES

## 1) List of EUPHA's members

**Green** marks new members since 2025. **Red** indicates the members that left.

### → National public health associations members of EUPHA in 2025 (43)

<b>Albania</b>	Albanian Epidemiological Association

<b>Sweden</b>	Karolinska Institute, Department of Global Public Health
<b>United Kingdom</b>	<a href="#">University of Liverpool, Law &amp; Non-Communicable Diseases Unit</a>

→ Individual members of EUPHA in 2025.

For those from Turkey/Ukraine we asked them to join the association.

The requirement for individuals is to set up an association but this is not happening so membership was withdrawn as agreed in the Executive Council of June 2025

Andorra	Josep Romagosa Massana
Georgia	Helen Phagava
Kosovo	Naim Jerliu
Moldova	Lilia Turcan
Moldova	Oleg Lozan
Tajikistan	Ikhtiyor Usmonov
Turkey	Serpil Keskin
Ukraine	Savelyi Rudzsky

→ Global members of EUPHA in 2025.

Kuwait	Prof Ibrahim Shady, Mansoura University, Faculty of Medicine This was a mistake as Global membership is for associations/institutes only
Nepal	Dr Ashik Banstola, Public Health Perspective There has not been contact since 2013 and they are not responding so membership was withdrawn.

### EUPHA members from the Russian Federation

The Executive Council has decided that the membership of Russian associations and organizations will be suspended until the Executive Council is of the opinion that the situation in Ukraine has sufficiently improved. This means that there can be no collaborations with EUPHA at the governing and organisational level. However, individual professionals that are part of EUPHA's network through these members can still access EUPHA's resources and take part in webinars and events on a personal title. In this way, we keep on supporting individual public health professionals and thus contributing to the Russian people being able to access adequate public health services and execute their right to health.

## 2) List of EUPHA's 30 sections

1. Behavioural and Social Science	13. Health services research	22. Public health economics
2. Child and adolescent public health	14. Health technology assessment	23. Public health epidemiology

7. Food and nutrition	19. Law and public health	28. Sexual and gender minority health
8. Foresight	20. Migrant and ethnic minority health	29. Social security, work and health
9. Global health	21. Oral health	30. Urban public health
10. Health impact assessment		
11. Health literacy		
12. Health promotion		

### 3) Impact Factor and rankings of the EJPH

Source: <https://academic.oup.com/eurpub/pages/About>

Year	Impact Factor	SI: Public, Environmental & Occupational Health	SSI: Public, Environmental & Occupational Health
2024	3.9	59 out of 421	122 out of 421
2023	3.7		
2022	4.4	69 out of 207	45 out of 180
2021	4.424	77 out of 210	49 out of 182
2020	3.367	72 out of 203	45 out of 176
2019	2.391	77 out of 193	47 out of 170
2018	2.234	80 out of 185	47 out of 162
2017	2.782	47 out of 180	20 out of 156
2016	2.431	54 out of 176	28 out of 157
2015	2.751	38 out of 172	18 out of 153
2014	2.591	44 out of 162	20 out of 145
2013	2.459	49 out of 160	23 out of 136
2012	2.516	38 out of 158	18 out of 136

## 4) List of Sections activities

---

### **During the EPH Conference**

#### **Pre-Conferences**

- [Multidimensional evaluation of health technologies: a complementary approach with HTA and HIA \(HTIA\)](#)  
Organised by EUPHA Health technology assessment and Health impact assessment sections
- [Re-thinking public health and primary care - Towards integrated public health competencies and services in Europe \(PRIM\)](#)  
Organised by EUPHA Health services research section, European Forum for Primary Care, Charité - Universitätsmedizin Berlin, Working Group Health Policy and Systems Research and Innovation (HPSRI), European Association of Emergency Medical Services (EMS), Falck
- [Novel models in Public Mental Health – investigating opportunities for mental health and wellbeing \(MENH\)](#)  
Organised by EUPHA Public mental health section
- [Vaccination uptake across the life course: a social and behavioural perspective \(VACC\)](#)  
Organised by European Centre for Disease Prevention and Control (ECDC); EUPHA Infectious diseases control section; proposed EUPHA Behavioural sciences in public health section; Radboud University Medical Centre, National Institute for Public Health and the Environment (RIVM); Public Health Service Rotterdam-Rijnmond, The Netherlands; Babes Bolyai University, Romania
- [Applying strategic foresight methods in public health and policy making: an introduction \(FORE\)](#)  
Organised by EUPHA Foresight section
- [Impact of climate change on the Sámi health and wellbeing: ethical and community-driven approaches \(SAMI\)](#)  
Organised by the Sámi Parliament in Finland, Finnish Institute for Health and Welfare (THL), EUPHA Migrant and ethnic minority health section
- [The Policy Toolbox: tools for policy engagement in public health \(TOOL\)](#)  
Organised by EUPHANxt, EUPHA sections Public health politics and policy, Public health economics and Public health epidemiology
- [What, where, when, who, and why: introduction to the behavioural science toolkit for public health \(BHPH\)](#)  
Organised by the proposed EUPHA Behavioural science for public health section, International Behavioural Trials Network (IBTN), National Institute for Public Health and the Environment (RIVM), Netherlands
- [Healthy settings, healthy lives: advancing the Settings Approach in health promotion \(HPRO\)](#)  
Organised by the EUPHA Health promotion section
- [Getting practical with AI in public health: real-world applications, challenges, and ethical considerations \(DIGI\)](#)  
Organised by EUPHA Digital health and AI section
- [Planetary health - impacts on our health, well-being, and work \(SSWH\)](#)  
Organised by EUPHA Social security, work and health section
- [Urban health research: shaping policy for health and equity \(URBH\)](#)  
Organised by EUPHA Urban public health section
- [Connecting nature and public health: scientific seminar and nature experience \(NATU\)](#)  
Organised by: Folkhälsan, Finnish Institute for Health and Welfare (THL), EUPHA Environment and health section  
Venue: Solvalla, Espoo, Finland

- [Causal inference and simulation in public health: evaluating real-world policies with real-world data \(ECON\)](#)  
Organised by EUPHA Public health economics section, Organisation for Economic Co-operation and Development (OECD)

### **Webinars**

- The Italian Fund for Alzheimers and Dementia: the public health response to dementia in Italy  
Organised by: EUPHA Chronic diseases section
- Low-value cancer screening: less is more?  
Organised by: EUPHA Chronic diseases section
- Yogurt consumption is associated with poorer sleep outcomes cross-sectionally, but not long-term  
Organised by: EUPHA Chronic diseases section
- Using Co-design to reimagine the regulation of digital drug information infrastructures in the EU  
Organised by: EUPHA Foresight section
- Strengthening Public Health Advocacy: What can national public health associations and schools of public health do to counteract expressions of concern or calls for reevaluation of WHO Membership  
Organised by: EUPHA and ASPHER
- Rehabilitation - the health strategy to deal with chronic diseases  
Organised by: EUPHA Chronic diseases section
- 5th inbetween conference seminar  
Organised by: EUPHA-Social security work and health section
- Stand up for Science - A Global Necessity  
Organised by: EUPHA
- From convenience to crisis: understanding the public health risks of ultra-processed foods  
Organised by: EUPHA Food and nutrition section
- Shaping the Future of Inflammatory Bowel Disease: A Global Research Agenda for Better Management and Public Health Response  
Organised by: EUPHA Chronic diseases section
- Rural Health Promotion  
Organised by: EUPHA Health promotion section
- Impact of Digital Interventions in the prevention, management and treatment of Non-Communicable Diseases - being in touch with the present and looking towards the future  
Organised by: EUPHA Chronic diseases section
- Training session on EU Grant preparation  
Organised by: EUPHA Health services research section, EUPHAnxt, EUPHA

## 5) List of EUPHA' seats

WHO European Regional Committee meeting	<i>Accredited non-state actor</i>
WHO Technical Advisory Group on Behavioural Insights and Sciences for Health	<i>Iveta Nagyova, EUPHA past-president</i>
WHO EUR Regional Director's Advisory Council on Innovation for Noncommunicable Diseases	<i>Iveta Nagyova, EUPHA past-president</i>
