

WEBINAR

ASSESSMENT OF VACCINES EFFICACY AND SAFETY

Tuesday 17 May 2022

12:00 – 13:00 CET

PROGRAMME

Around 10-15% of the European population have doubts on vaccines efficacy/safety and 20% do not believe that they are rigorously tested before authorization. These percentages are even higher regarding COVID-19 vaccines. In this light, this webinar will address how vaccines are evaluated in clinical development programmes and through vaccine vigilance.

12:00 Introduction – Chiara de Waure

12:10 The clinical development plan of vaccines – Stefano Valente

12:30 The monitoring of vaccines safety through vaccine vigilance – Ugo Moretti

12:50 Q&A time

Chiara de Waure - Associate Professor in Public Health, University of Perugia; President EUPHA-HTA

Stefano Valente – Director, Medical Affairs Vaccines, MSD, Italy

Ugo Moretti - Associate Professor in Pharmacology, University of Verona; Regional Pharmacovigilance Centre of Veneto region
